City, GA 12345

1. If using a big printer you will need to feed through the bypass tray on the side. (Konica, Savin, etc.) Make sure your settings are for 8.5 x 5.5
2. Highly recommended you use a blank 8.5x5.5 first before feeding actual card through to make sure it prints on the correct side.
3. If using a template that contains an image: Click on the image box in the template. Select "insert" "picture". Find your image and select enter. This will put the image in the templated box.
4. Be sure to double check numbers, addresses, spelling, etc. before printing. (Supplies are limited to what you have.)
